

## Mid-South Color Labs, Inc. FTP Instructions.

Please use an FTP Client application to access the Mid-South FTP Server.

Here is a small list of popular clients.

| MAC                  | PC        | License    |
|----------------------|-----------|------------|
| =====                | =====     | =====      |
| CyberDuck, FileZilla | FileZilla | Free       |
| Transmit             | CuteFTP   | Commercial |
| Fetch                | WS_Ftp    | Commercial |

The ftp server address is: 69.167.203.190

The username is: DropBox (case sensitive)

The password is: Upload (case sensitive)

Please make sure that the connection type is in "Passive" or "Default" mode. "Active" connection types will very likely time-out when connecting or transferring data.

You can create a folder if you like to organize multiples files.

When your files are uploaded to our servers, please email your lab contact (or [orders@midsouthcolor.com](mailto:orders@midsouthcolor.com)) with the location and the filename of your artwork.

If you have any difficulties please let your lab contact know at 1.800.221.3920 or 731.422.6691

Thank you.

Note: You can use an Internet browser (Internet Explorer or Firefox) to FTP files, but they don't work as smoothly as one of the client shown above. The address when using a browser is `ftp://69.167.203.190`. (Remove all characters from IP address line before entering the ftp address.)
